

**Finally, we caught up
with a member of staff
to talk you through the
first day.**

INTERVIEW 3

Teacher

So, what should students expect on their first day at a college?

“The college will be busy and may seem very hectic for new students, however, be patient and we will get you to where you need to go. There will be plenty of members of staff that will help you so please ask us anything”

TEACHER

What should students bring on their first day?

“Students should bring pens, pencils, a note pad and a folder to store any handouts given during the first day. Also, you might be instructed to bring other stuff but that will depend on your course”

TEACHER

What advice would you give a new student?

“The best advice to give to a new student going into college, is to ask as many questions on your first day as you can. Also, to remember it is normal to be nervous and many other students will be in the same position Try to talk to other students and make new friends. One last thing I would add is to make use of all the services around the college as there are a lot, such as the careers team, student services and wellbeing”
